Second Day's Attendance Exceeds That of Last Year's Fair

REALISTIC DISPLAY MADE BY FIREWORKS

Bombardment of Liege Noisy as Original Scene at Belgian Fortress.

GREAT CROWD ON MIDWAY

Night Sees Yelling, Pushing, Excited Mob, Almost Beside Itself With Joy Unconfined-Excellent Order Maintained-Few Arrests.

not the price of admission, or failed for other personal reasons to enter the gates, witnessed the pyrotechnic display from the outside, and Joined in a sheet of flame soaring above a scroll of smoke.

MIDWAY SCENE OF

MIDWAY SCENE OF

MIDWAY SCENE OF

Time left was devoted to the excitement and thrills of Midway and Bally and the crowds and turned them into a fever of the spiclers quickly infected the crowds and turned them into a felling pushing, excited mob that was beside itself with the flavor of joy unconfined. Fakers and splelers moved in and out, shouting their wares or crying an appeal for their shows, and if the people were slow in entering it was not because they did not believe everything that was told them.

A fair without a Midway would be a failure from the start. Any fair with the Midway now on the grounds is bound to be a success. Your fater and traveling showman are the most bound to be a success. Your fater they please you, so well and good; if they fall to attract your attention it is themselves they blame, not you. Selve them a chance. It costs only a mid traveling showman are the most with what you see they guarantee of its themselves they blame, not you. Selve them a chance. It costs only a suit of the proper shows that there is something after all in their freaks and frivolities.

The lanes were thronged last night, the lanes were thronged last night they feat are well-meaning folk, and they read the proper that there is something after all in their freaks and frivolities.

The lanes were thronged last night, the lanes were thronged last night there had go to the proper through the proper thronged last night, the lanes were thronged l

Class 32—best specimen crocheted centrepieces—first, Mrs. S. F. Haden, Fife, Va.; second, Miss J. W. Richardson, Lexington, Ky.

Class 34—best specimen crocheted centrepieces—first, Mrs. S. F. Haden, Fife, Va.; second, Miss J. W. Richardson, Lexington, Ky.

Class 34—best specimen punch work—first.

More than 5,000 people, it is estimated, thronged the State Fair Grounds
Last night to witness the pyrotechnic
display and the realistic "eruption of
Mt. Vesuvius" and the bombardment of

aman beings.

There was no confetti throwing, and ere was no sign of the whip which used complaint two years ago. The long lanes were patrolled by police, owner and detectives, and in spite of general excitement there was never indication of disorder. It was a ry field and a well ordered crowd.

Near the Travelers' Aid restroom is the rest tent operated by the Young Mens' Christian Association, and an-other by the Young Women's Chris-tian Association. Both were used ex-tensively yesterday, and all will be of valuable service to-day in handling those who cannot keep up the pace.

PARCEL POST BOOTH

Many Farmers Plan to Take Advantage of Farm-to-Table Plan.

Probably the busiest spot in industrial hall is the parcel post exhibit of the local post-office. It was surrounded all day yesterday by persons anxious to receive instruction in the proper method of packing articles for shipment. The majority of these were farmers who expect to take advantage of the farm-to-table plan recently put in operation.

larmers who expect to take advantage of the farm-to-table plan recently put in operation.

Postmaster Hay T. Thornton, Assistant Postmaster W. Ross Southward and Superintendent of Mails Harry M. Lawder are giving their personal attention to the booth, and experienced parcel post employes are on hand to give demonstrations and information. There is nothing in their line that will not be shown on application.

In addition to its instructive features, the parcel post booth is being used by scores of persons for mailing packages to their homes. It is believed that no less than forty dolls were mailed yesterday by winners who did not care to be burdened with them all day. Arrangements have also been made by several exhibitors to use the parcel post to return their goods. The number and variety on exhibition has been a revelation to them.

Wheels of Fortune Gone.

One of the most noticeable things at the Fair is the absence of wheels of fortune, which have been abolished at the suggestion of the county police authorities. The only form of gambling permitted is the doll raffles—and these meet with no disconnection. these meet with no disapproval from the most straight-laced. All other games of chance are under the ban and have gone the way of the old Oriental dances, which, by the way, have been replaced with tangoes and modern dances,

ATTENDANCE LARGER

Virginia Railway and Power Company Announces Compara-

tive Figures.

Ready to Operate Two Cars Per Minute, or 120 Per Hour, Over Fair Grounds Loop-Five Main Lines Run to the Grounds.

Comparative figures gathered by the

Virginia Railway and Power Company show that the attendance yesterday, the second day of the fair, was greater than that of the corresponding day

tendance of the corresponding day of 1912, the best since 1910. Figures obtainable up to midnight by the street car company show that 9,713 people were carried away from the Fair Grounds, while last year the turnstiles registered only 9,422.

In 1910 the number of people carried by the Virginia Railway and Power Company on the second day of the Fair was 13,533; in 1911 it was 11,961; in 1912, 12,646, and in 1913, 9,422. In actual figures, the street car company carried yesterday 291 more people than it did on the second day of the annual show last year. While the increase, so far as numbers might be regarded as of unusual significance, it has a relatively larger meaning, since it had been apprehended that, owing to industrial conditions, there would be an appreciable falling off in the general attendance. So far from this being regarded as true, the officials of the Fair and the Virginia Railway and Power Company, are preparing to handle to-day a larger crowd than they cared for on the Wednesday of the last fair,

FIVE MAIN LINES RUN

Rev. John Roach Straton, pastor of Seventh Street Baptist Church, Balti-more, will be the speaker to-day. His address will be made at noon, after of the throngs expected on the scene which he will be at the league booth to-day will be assured.

the Fair yesterday, was the spectacle, rarely seen in Richmond, of the moving picture man busily turning the last year, and not far short of the at-tendance of the corresponding day tendance of the corresponding day of films groups, scenes, incidents, acts and 1912, the best since 1910. Figures ob- activities of the kaleidoscopic show.

TAKES PICTURES OF RICHMOND
By way of leading up to the Fair, the
instantaneous artist took a lot of pictures of Richmond, both as a city of
historical interest and as a thriving,

handle to-day a larger crowd than they cared for on the Wednesday of the last fair.

FIVE MAIN LINES RUN

THROUGH TO GROUNDS

The street car company will use to-day five main lines instead of the three operated last year, and will have two cars leaving the grounds every minute during the day, or 120 cars every hour. Cars will be routed to the Fair Grounds along the Main Street, the Broad and Main, the Broad and Twenty-fifth, the Oakwood and Broad, the Clay Street and the Forest Hill lines. All cars operated to the grounds will be equipped with signs giving their destination, and the public, in returning to the city, is warned to avoid the delay of transferring to other lines by taking the right car at the point of departure.

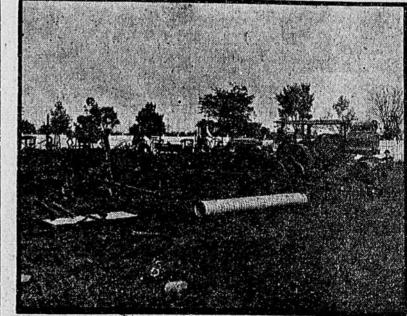

During the day, up to 5:30 o'clock, there will be i60 cars in operation on a direct routing to the Fair Grounds. At 5:30 o'clock this number will be increased to 175, and, if necessity demand, this number will be increased to 175, and, if necessity demand, this number will be increased to 175, and, if necessity demand, this number will be increased to 175, and, if necessity demand, the necessity of trowding, it is the stated alm of the company this year to operate a sufficient number of cars so that every one may have a seat. The average seating capacity is forty-eight, and the maximum is sixty four. The articulated cars will reary in the first crowded take the extra details of police, firemen and Boy Scouts, and the city ambulance corps will be reinforced so that it may be able to handle any extraordinary emerity vided every safety and preventive device of the Fair can at the point of departure.
